

For the Love of Lettuce

Written and illustrated by Courtney Dicmas

Two caterpillars approach life in very different ways. Zip likes to plan, but doesn't like change, while Parsley is happy to live in the moment. How will they cope in the face of sudden and unexpected change? This hilarious adventure is a lively introduction to adaptability, problem-solving, resilience, and mutual understanding.

Another fantastic title by author/illustrator Courtney Dicmas, full of color, humor and invention.

Features:

- Social skills and citizenship: This picture book can be used to encourage children to appreciate the differences between them and their friends.
- Growth: readers can talk about the theme of change - what changes about the caterpillars' relationship? In what ways do the characters change and how do they stay the same?
- Empathy and creativity: 'For the Love of Lettuce' can be used to show children how to see things from another perspective in many ways; Zip learns to see Parsley's relaxed attitude in a positive light, and young readers can be inspired to write from another point of view. We may see chickens as harmless, but to small caterpillars, they're monsters!

Tree Whispers

Written by Mandy Ross, illustrated by Juliana Oakley

Our leaves rustle, Our roots whisper. If you were a tree, what would you whisper to me?"

Mandy Ross has been listening closely to the trees, from the willow to the eucalyptus, and the sycamore to the oak. These fascinating poems, beautifully illustrated by Juliana Oakley, imagine the songs they are singing to us and the verses they speak.

With a strong environmental message, the book awakens us to the rich, unique and irreplaceable biodiversity of tree life and the many species that depend on it - including ourselves.

Features:

- Features trees from around the world, providing opportunities to simultaneously learn about geography, nature and poetry!
- You could take the book to a park, forest or arboretum and see how many of the trees you can find.
- The book provides plenty of opportunities to discuss conservation efforts and could encourage children to take action.

Life on the Thames

Written and illustrated by Emma Shoard

A gorgeously illustrated journey along one of Britain's most well-known rivers. The Thames sustains a staggering number of birds, mammals and other creatures. Learn about them in-depth as you progress from the source of the river to its estuary. A gift that any young wildlife fan would treasure!

Features:

- Presentation: 'Thames' makes a breathtaking gift for anyone with an interest in the UK, wildlife or history. Informative and aesthetically pleasing, this book would make a great addition to any bookshelf.
- Engaging layout: readers at all sorts of levels can enjoy this book, which is full of stunning illustrations. The style of the text means that the book can be read in sections.
- Potential for linked activities: the book can be used as a basis for a project on river habitats. The themes of history and preservation can also spark new interests and help children to engage with the natural world.

Around the World on 80 Horses

Written and illustrated by Jill Newton

What is a Zonkey?

Why do some horses have feathers?

How can a horse sleep while standing up?

Which horse dances to the beat of the tom toms?

Who was the eight-headed horse of Indian folklore?

Come on a journey around the world and meet 80 unique breeds of horses and ponies which have adapted to harsh environments in unusual ways. Be introduced to incredible equines, both real and mythical, that dance, talk, spell, save lives on the battlefield and have even won Oscars!

This book is brimming with facts about the brave and bizarre acts performed by this amazing animal that helped shape civilizations for over six thousand years.

Bilingual Baby Board Books

Haitian Creole / English

Illustrated by Annie Kubler & Sarah Dellow

Now in Haitian Creole bilingual editions! This award-winning series has been specifically designed for babies. A great introduction to books through well-known nursery rhymes and interactive text. Singing songs and rhymes is the perfect way to bond with your baby and share quality time. It also aids language development by introducing them to the natural sounds and patterns of speech. Combining these with actions also stimulates the brain and helps muscle development.

Benefits:

- Refreshed and reimagined artwork brightens up some of our most popular titles in our Baby Board Book series!
- Diverse and inclusive illustrations positively portray a wide range of children.
- Repetition of rhymes, songs and stories is good for brain development, and helps babies to learn how language works, and aids in building memory

Gimnasio de Bebé/ Baby Gym

Spanish / English

Illustrated by Sanja Rešček

Translated by Yanitzia Canetti

Now in Spanish / English bilingual editions!

Touch is a baby's first language... Designed to stimulate the senses and based on research into the benefits of baby exercise and massage, these books encourage interaction between parent and baby. Devoting time to special activities with your baby plays a crucial part in the bonding process. Singing, accompanied by energetic activities, encourages babies to express their emotions, release tension - and just enjoy being noisy!

Benefits:

- Baby exercise and massage has been shown to have many benefits, including helping baby relax, release tension, decrease irritability, and increase bonding.
- Diverse and inclusive illustrations positively portray a wide range of children.
- Daily activity is good for brain development, and helps babies develop muscle strength and coordination.

Rosa's Workshop 2

Spanish / English Bilingual Editions

Written & Illustrated by Jessica Spanyol

Translated by Yanitzia Canetti

Rosa and friends return! A simple story in each book shows this diverse group of children making exciting discoveries about their world. Ideal for STEM enrichment.

This series shows children how to carry out basic experiments, predict results and assess outcomes. The comments made by the characters inspire conversations and observational exercises. Rich in specialized vocabulary, these books encourage budding scientists to record their findings and include examples of purposeful writing.

Many of the scenes could be used as a basis for activities that improve fine motor skills. The characters recognize when their ideas don't work; they model a growth mindset by laughing off their mistakes and learning from them. The books also provide examples of critical thinking and tool-use.

Benefits:

- A follow up to the immensely popular "Rosa's Workshop" series, from the creator of "All About Rosa", "Clive's Jobs" and "All About Clive"!
- The four books celebrate diversity and challenge gender stereotypes, showing that all children can have a passion for science, technology, engineering and math.

Errol's Garden

Written and illustrated by Gillian Hibbs

Errol loves gardening, but he doesn't have a proper garden. Although his home is full of beautiful plants, he longs for an outdoor space where he can grow things. A chance discovery leads to a solution, but Errol can't do everything on his own.

Luckily, help is near at hand. A heart-warming and inclusive tale about how one small boy's dream of a garden unites a diverse community in a positive and enriching experience for everyone.
