STATIONERY TERMS APPLY

What could be a more welcome activity than slowing down, getting lost in a beautiful image or work of art, and then piece by piece, putting it together? Or having a raucous good time at your next birthday celebration doing a group *Hippo Birdie Two Ewe* 300-piece Boynton birthday puzzle and card? Whether you're looking for a mindfulness break, a mental workout, an old-fashioned activity that brings the whole family together, or the perfect easy gift, this list is just right. From a nineteenth-century chromolithograph of dancing butterflies to a winding country lane that leads to a cottage that daydreams are made of, from a wry parody of an Old Master to a collection of iconic watches—even a puzzle for the persnickety person who loves complaining even while puzzling—this selection of puzzles is perfect for every taste and level of challenge. *Jigsaw puzzles are sold under stationery terms.* Please contact your Thomas Allen & Son sales representative for more information.
